Diamond Chase Draw-Bar Cylinder Press Series

The Cylinder Press series is a part of the Diamond Chase Draw-Bar system. This brand of frame has been an industry standard for decades. It is a precise, self-stretching, re-tensionable screen frame, designed for the closest tolerance and tightest registration applications. Mesh tension can be adjusted on each frame side with bolts spaced every six inches (custom spacing also available). The Cylinder Press frame is a frame specifically developed to work with cylinder presses and cylinder presses with master frame carriers.

FEATURES

- Retensionable for extended fabric life
- Manufactured to custom specifications
- +/- 1 N/cm accuracy in tensioning
- On press micro-registration capabilities
- Fully welded, guaranteed watertight for life
- Frame guaranteed for life against workmanship defects
- Replacement parts/rebuilds available
