DOUTHITT Model DMW Space Saver Wall Model Screenmaker

The DOUTHITT Model DMW is a wall-mounted direct method vacuum frame screenmaker. It loads glass-down, then tilts up to a vertical position for printing.

Tilting is aided by counterbalanced sliding weights concealed in the side tubes.

The integrated DOUTHITT “Deep Draw” Black blanket swiftly molds itself to the shape of the screen and holds the positive in perfect contact.

FEATURES

- Heavy duty vacuum pump and motor
- Vacuum relief bleeder valve and vacuum gauge
- Optic clear A-1 select glass
- 10' service cord
