Dynamesh DYNACHEM Mesh Prep Degreaser

DYNACHEM Mesh Prep + Degreaser is a ready-to-use product based on a revolutionary approach to preparing mesh for emulsion coating and film application.

Its unique formulation of water-based polymeric components eliminates many common screen making problems.

FEATURES

- Incorporates a unique mesh treatment which eliminates pinholes and fish eyes
- Conditions the mesh to allow smooth, uniform flow of direct emulsions
- Can be reduced with 20 parts water and used as a simple mesh degreaser

PURCHASING OPTIONS

Available in

1 Quart, 1 Gallon, 55 Gallon sizes

Contact your sales representative for additional information on our competitive pricing and volume discounts
