

RhinoClean™

PRODUCT DATA SHEET

SW210™ Screen Wash / Ghost Ink Degradent

Description

- A low odor, water-soluble, multi purpose screen wash designed to work quickly on Plastisol, U.V. and many solvent-based inks.
- Evaporates slowly for maximum yield, while cleaning large screens without leaving residue on the screen.
- Ideal for quickly washing the screen after the press run.
- Has a higher flash point than lacquer thinner, alcohols, ketones, etc.
- Recommended for manual or automatic equipment.
- Biodegradable, non-toxic and environmentally friendly.

Directions

1. To remove ink from screen images, apply SW210™ to squeegee-side of screen and wipe clean.
2. To clean screen following production run either 1) scrape off remaining ink, 2) apply SW210™ to both sides of screen with a brush and wipe clean or rinse off ; 3) use in automatic ink removal equipment.

It is the responsibility of the screen printer to test the product; review the MSDS prior to use to evaluate whether or not the product is correct for the application intended.
