

product solution

Fotec FOTECOAT 1811 Emulsion

FOTECOAT 1811 is a ready-to-use emulsion with medium exposure time and outstanding exposure latitude on dyed mesh. The emulsion offers good coat ability as well as excellent reclaiming. It can be exposed with almost all light sources and has superior wet-hardness after washout. Attention must be paid to environment light—avoid day or stray light. It also has a 34 percent solids content.

 **\$47.65 / GAL**

FEATURES

- Medium viscosity for coarse and fine meshes
- Excellent flow-out avoids pinholes caused by too fast coating
- Decoatable with all chemicals used for emulsion stencil removal
- Not affected by high humidity
- Very little water resistance
