

product solution

Fotec FOTECHEM 2001 Mesh Prep & Degreaser

FOTECHEM 2001 is a ready-to-use mesh prep and degreaser that not only cleans mesh, but also improves stencil adhesion. It is recommended for use with both direct emulsion and capillary film. FOTECHEM 2001 is particularly recommended to improve exposure latitude and adhesion of photopolymer stencils. For textile applications, dilute at 1:2.

◆ \$25.40 / GAL (1:2) = **\$12.70 / GAL**

FEATURES

- Contains powerful degreasers for cleaning
- Combined with wetting agents to improve stencil adhesion
- Can be used with synthetic monofilament and stainless steel mesh
